ANTIFOULING – Conventional - Eroding

Micron® Optima

Micron Optima has been designed to provide exceptional antifouling protection for a full season against all types of fouling including slime. Minimal paint build up occurs over time due to self polishing technology. It is effective against all forms of fouling. It is solvent free and low odour ensuring a cleaner working environment. Contains Copper Oxide and Zinc Pyrithione.

Micron® Extra

Micron Extra is a high strength, premium performance polishing antifouling that provides 2 seasons protection from just one application (3-4 coats). Formulated with Biolux™ Technology for controlled optimised biocide release, Micron Extra delivers outstanding protection even in difficult fouling conditions. It enables boats to be hauled and relaunched without repainting. It utilises a Polishing System which avoids paint build up and can be applied up to 12 months before launch. Contains Copper Oxide and Dichlofluanid.

ANTIFOULING – Hard

Trilux

Trilux offers protection in low to medium fouling conditions where a hard, scrubbable antifouling is required. It is ideal for fast powerboats over 25knts, propellers, outdrives, sterngear and the waterline. Medium strength and based on Biolux Technology, it is available in range of bright colours, including bright white. It is suitable for burnishing to provide a smooth finish and has an aluminium compatible formulation. Contains Copper Thiocyanate and Dichlofluanid

VC® 17M Extra

VC 17m Extra is a hard antifouling with Teflon that gives your hull a slick low friction surface for maximum speed and efficiency. It makes the ideal choice for highly active craft such as racing yachts and RIBs. VC Extra 17m self-levels to a smooth even finish without the need to sand and dries rapidly allowing you to paint and launch in the same day. Forming only a thin film, minimal paint builds up with time. It is suitable for use (with recommended primers) on GRP, Steel and lead surfaces. *DO NOT USE Graphite on Aluminium.*

TWO PACK POLYURETHANE GLOSS FINISHES

Perfection®

Perfection 2-part polyurethane is the ultimate performing, high gloss topside finish. It provides the longest-lasting, ultra-high gloss finish that has superb colour-retention, together with excellent chemical and abrasion resistance. It has been formulated specifically to enable skilled amateur users to achieve professional-quality results with ease. UV filters combined with the chemical cure of the polyurethane give the longest life possible. It is an excellent choice for use on high wear areas e.g. decks (with Non Slip additive). It is chemically resistant to diesel, petrol, oil, mild acids and alkalis.

TWO PACK POLYURETHANE UNDERCOATS

Perfection® Undercoat

Perfection Undercoat is the ideal base for a long lasting scheme, when used with Perfection finish. The 2-component formulation provides excellent obliteration. Long overcoating times allow coat-on-coat application and make for an easy to apply product. Perfection Undercoat rubs down to an exceptionally smooth finish and the semi-gloss finish allows easy checking for hull fairness. It can also be tinted with Perfection Gloss to compliment the final colour.

EPIGLASS® EPOXY RESIN

Epiglass® 1.2kg DIY kit

Epiglass is a versatile epoxy resin system, suitable for a wide variety of uses, such as sheathing, laminating, filling, fairing and gluing on boats of all types. In addition to the high strength and durability associated with epoxy resins, this unique and easy-to-use formula is solvent free and has a low odour ensuring a cleaner working environment. It has a low viscosity for ease of mixing and wet out.

1.2kg YAA900/AF1.2 Other pack sizes available in the Professional Range

Glue Powder

This extender produces a high strength epoxy glue when mixed with the Epiglass HT9000 resin mix. Epiglass provides outstanding strength and durability under all conditions. The viscosity can be varied by the volume of the glue powder added. Glue powder should be added to filling and fairing mixes to improve trowelling and feathering properties and to prevent sagging.

1 Litre YXA110/50

Wood Fibres

White Cellulose fibre for adding to glue mixes when bonding. It is especially suitable for fillet bonding.

1 Litre YXA220/175

Epiglass® Epoxy Solvent

Epiglass Epoxy Solvent has been formulated for use with Epiglass HT9000 Epoxy Resin in surface preparation and equipment cleaning. Used for wiping down surfaces prior to application of resin, glue or fairing mixes. It can also be used to thin Epiglass when sealing wood.

500ml YTA901/500

BOAT CARE

UV Protecting Wax Sealer

UV Protecting Wax Sealer is a high performance, deep-gloss wax sealer. It is a non-abrasive reactive wax sealing solution with Teflon®. Providing excellent protection against dirt and oil contamination, its thin film reactive formula provides the ultimate UV protection. It may be left for an extended period prior to polishing off and is machine polishable. It provides a long-lasting, high gloss, hard-shell protection which may be used in direct sunlight. UV Protecting Wax Sealer is also suitable for use on the car, caravan or garden furniture.

500ml YMB639/500

Premium Polish

Premium Polish is an advanced wax polish with Teflon® containing wax. It is ideal for paintwork and GRP, providing a high gloss finish. Excellent protection against the marine environment is provided when using either manual or machine polishing (800-1000rpm). It is quick and easy to use, producing a high gloss, dirt-repellant finish. The Teflon® content provides an easy to clean surface. Premium Polish is also suitable for use on the car, caravan or garden furniture.

500ml YMB636/500

Polwax

Polwax is a cleaner, polish and wax in one product. Used for quick and easy cleaning, polishing and waxing of oxidised gelcoats and painted surfaces. It is free from silicone oils and can be used manually or by machine (800-1000 rpm). Ideal for larger surfaces a full gloss finish can be easily achieved. It is also suitable for use on the car, caravan or garden furniture.

500ml YMB635/500

Liquid Rubbing

A liquid polishing product that restores the former shine on gelcoat and painted surfaces. It does not contain wax or silicone and is suitable for both manual and machine polishing (800-1000 rpm). It is also suitable for use on the car, caravan or garden furniture.

500ml YMB625/500

High Strength Stain Remover

A high strength reactive gel formula that quickly, easily and safely removes exhaust, rust stains, yellowing, oxidation and scum lines on GRP and painted surfaces. It is safe for use on fibreglass, metal and painted surfaces. In a thick gel consistency form High Strength Stain Remover will not run when applied to vertical surfaces.

500ml YMB622/500

Boat Shampoo

Boat Shampoo is a universal cleaner suitable for fibreglass, wood, metals and painted surfaces. It does not remove wax and can be used regularly without affecting your wax protection. It can be used with salt water and is therefore convenient for use anywhere. Boat shampoo leaves surfaces shiny and water repellent.

1 Litre YMB621/1

500ml YMB621/500

Super Cleaner

Super Cleaner is a highly concentrated cleaner, removing wax, oil and contamination effectively. It is suitable for hand or high pressure machine washing, degreasing and cleaning with no damage to the gelcoat or paintwork. It should always be used before waxing. Super Cleaner does not damage acrylic glass and when diluted, is suitable for general cleaning on the boat, bilge/engine or car. Super Cleaner is fully biodegradable.

500ml YMB620/500

Teak Oil

Teak Oil is a special penetrating oil for protection of teak decks and teak interiors. It produces a protective and easy-clean surface. It is a penetrating wood treatment containing linseed and tung oils. For use on any interior or exterior hardwood, it produces an attractive sheen finish, penetrating even moist wood. Teak Oil contains an anti-rust wax for metal surfaces.

500ml YMB645/500 Other pack sizes available in Professional Range

Teak Restorer

Teak Restorer cleans and restores teak and other hardwoods. It will re-establish the natural colour of teak on any interior or exterior hardwood. Teak Restorer is ideal for decks, teak details and finishing and is also suitable for garden furniture. It does not damage GRP, varnish, paintwork or aluminium and is biodegradable.

500ml YMB640/500
