Interdeck®

Slip Resistant Polyurethane Deck Paint

Heather Morton, Specialist in Retail Finishes Development

"Can't find the deck finish you want?"

Why not create your own custom finish deck using our non-slip additive and your favourite colour from our finishes ranges? Non-Slip Additive can be mixed in before painting or applied to the wet paint surface. Create matt or satin effects using a matting additive. Mix or match your deck and topsides - it's your project, you choose!

Find out 'How To' create a custom finish deck at yachtpaint.com

Danboline

Hard Wearing Coating for Bilges, Lockers and Bulkheads
