The Technical Data Sheet (TDS) is recommended to be read in conjunction with the Safety Data Sheet (SDS) for this product. For your nearest local Jotun office, please visit our website at www.jotun.com.

Technical Data Sheet Aqualine Optima Spray

Drying times

Drying time will increase with increasing film thickness. The surface should be dry and free from any contamination prior to application of the subsequent coat. Please launch within 9 months after application. The boat should be well covered or stored indoor if not launched shortly after application. The given data must be considered as guidelines only. The actual drying time and time before recoating may be shorter or longer, depending on the ambient temperature, film thickness, ventilation, humidity, underlying paint system, requirement for early handling and mechanical strength etc.

Relative Humidity (RH) 50 %	
Substrate temperature	23 °C
Surface (touch) dry	30 min
Hard dry	3 h
Dry to over coat, minimum	20 min
Dried/cured for immersion	3 h

Directions for use

Surface preparation

Surfaces with grease, oil or other contamination, wash with recommended Jotun Yachting detergent.

Pretreatment

For new coated stern drives clean with Jotun Thinner No. 7. For other metal parts sand with P150 - P180. For best result, the substrate should be clean, dry and free from any contamination. Cover adjacent areas not to be treated.

Primer

Bare substrate to be treated with recommended primer system: Vinyl Primer Spray. AntiPest can be used. Refer to TDS, direction for use for the selected Jotun Yachting product.

Finish coat

Shake the can for 2 mintues before painting. Hold the spray can approximately 15-25 cm from the surface. Apply three coats. Allow to dry 30 minutes between every coat. Turn the can upside down and spray 3 seconds to clean the nozzle.

Remarks

Avoid storing the can in direct sunlight and high temperatures above 50 °C.

Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care. Frost free freight and storage.

Shelf life at 23 °C

Aqualine Optima Spray

24 month(s)

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.
